

Minutes from semester group meeting with DE5 on 01-10-2004

Present: Zhenyu Yang, Akbar Hussain, John Skelmosse Jensen, Daniel Ortiz-Arroyo

Cancellation: N.E.Bødker Jensen

Zhenyu welcomed this first meeting.

1.Courses:

Network and data communication. John Skelmosse Jensen, SE course – oral exam
Both students and teacher found things going very fine – no further comments

Operating systems – Akbar Hussain, SE course – oral exam
Both students and teacher found things going very fine – we have good discussions on class with teacher.

Methods for design, Daniel Ortiz-Arroyo, PE course
Daniel is a good teacher, talks too much and gives too many slides, slides have already been reduced.

Digital signal process, Akbar Hussain, PE course
Things are going fine – no further comments

Process control, N.E.Bødker Jensen and Zhenyu Yang , PE course
Things are going fine – no further comments

General comments:

Compliments to the schedule where courses are compressed with more time for projects. However the students find the period between the finishing of the courses and the exam period too long.

2.Projects

Group 540: Active noise control, supervisor Zhenyu Yang
We are assembling the model and have got all the materials for it. We talk about our scheduling and go on working.

Group 541: Wireless communication/finger print, supervisor Akbar Hussain
The equipment is expensive – but has been worked out. We are a little behind schedule.

Group 542: CD Rom/Copyright, supervisor John Skelmosse Jensen and Akbar Hussain
WE have developed a time schedule and we have got a CD player. The hardware side is ok. We have a cooperation with the company B&O. Akbar is main supervisor and John assisting supervisor.

Group 543: Not present, supervisor Akbar Hussain
Supervisor Akbar: The student is still thinking about his project and has sent mail to me and Zhenyu which we have answered.

No general comments.

3. Other things.

Compliments to the computer department for quick email lists and group drives.

On 15-11 there will be information about 3rd DE semester and following semesters for basis students.
Would any of you like to demonstrate a project?

On request from students about information about study after DE5, Britta will contact David and arrange an information day. Further information will soon follow.

No further comments.

Nex meeting will be on 28th of October at 13.30 in room A210.

6.10.2004
